## SPRING CLEAN OUTS

Midwest Aquatics & Landscaping (MWAL), will start spring clean outs in April. Average 2000-3000 gallon pond will take approximately 2 hours. Pricing starts at **\$425** for first 2 hours, \$65 for each additional hour. Pondless waterfall cleanouts, and other features start at **\$250**.

## WHAT TO EXPECT

We will catch & store fish in holding tanks with as much existing water as possible, drain water from pond, power wash rock, gravel & filter mats, cut back aquatic plants as needed, remove debris, check for leaks, tweak waterfall and stream, adjust underwater lights, check liner stress spots, add water back in, dose with beneficial bacteria, dechlorinator if needed and start the water feature back up. If you would like underwater lights fixed and bulbs replaced please write under "Other things you want to look at:". Materials will be billed accordingly.

**Water will look dirty when introduced back into the pond, beneficial bacteria will normalize pond in approximately a week. Original water helps ecosystem stay intact and rarely stresses the fish.**

**\*Disclaimer: We will do everything possible to protect your fish but cannot be held responsible for them\***

## PREPPING FOR YOUR CLEAN OUT

If you need any pond-critical items, such as UV lights, water pumps, etc., added to your pond we ask they be placed outside the morning of your scheduled clean out. We will make reminder calls the night before or the morning of, depending on the time of your scheduled clean out.
